# Retail: Sales channel reformation delivering results

Face-to-face: Revenue growth driven by higher client interactions

## Increase in new accounts in HNW space

## Face-to-face revenue growth outpacing overall division

\*Indexed, FY2022/23 actual (half-year) = 100

Non-face-to-face: Leveraging digital tools to maintain revenues

## Rising number of accounts logging into apps for first time

## Non-face-to-face revenues up YoY despite lower headcount

\*Indexed, FY2022/23 monthly average = 100

1. Actual results for last fiscal year is the monthly average of the total of revenues booked last year from clients covered by Digital Customer Services in the first half of this year and revenues booked last year from Net & Call.

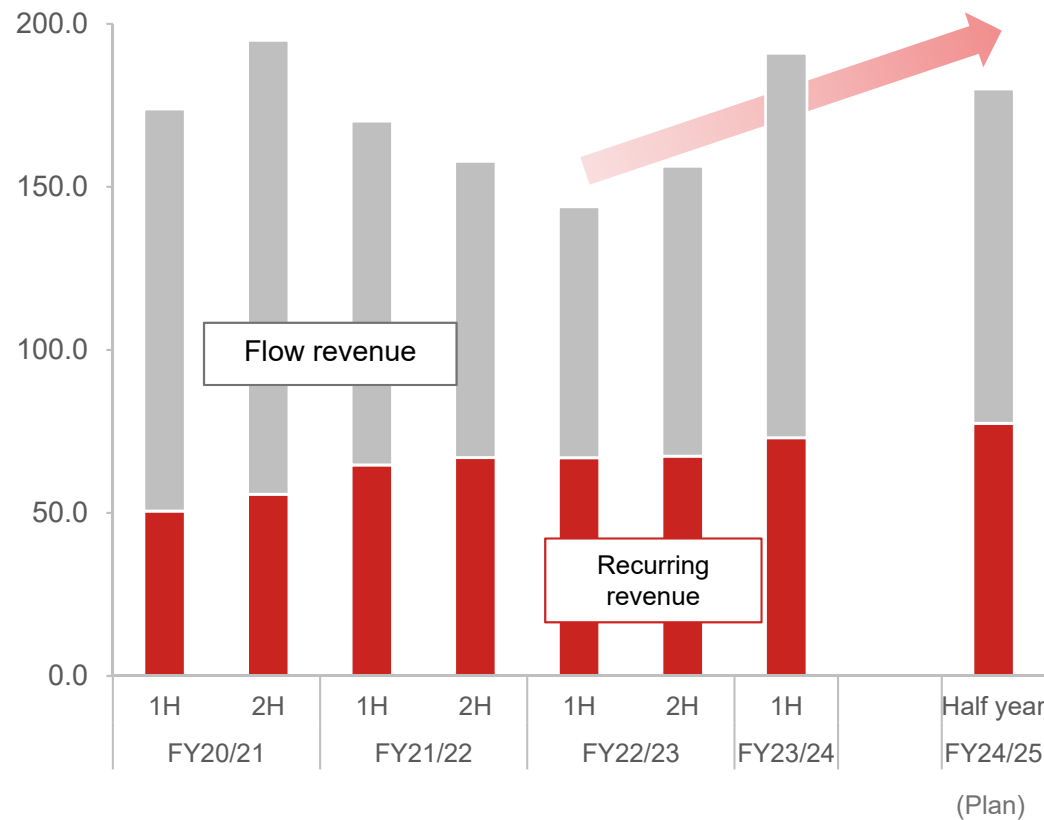

# Retail: Business model transformation driving remarkable development in performance

- Performance rebounded this year as stringent cost control helped lift recurring revenue cost coverage ratio
- Further diversify recurring revenue business to lift recurring revenue cost coverage ratio to 80% by FY2030/31

## Strong revenue growth

(billions of yen)

PTI 37.9 54.4 36.0 23.2 10.4 23.1 52.0 47.5

## Further raise recurring revenue cost coverage ratio by 2030

## Retail: Expanding workplace business

- Workplace market is growing as demand from corporates rises due to increased need for workers to build up their assets
- By providing workplace services for corporates and asset building and asset management services for employees at each stage of their career, we aim to create the next generation of high-net-worth clients

### Overview of next gen. HNWI's retention and service provision

### E.g.) Expanding client franchise through ESOP business

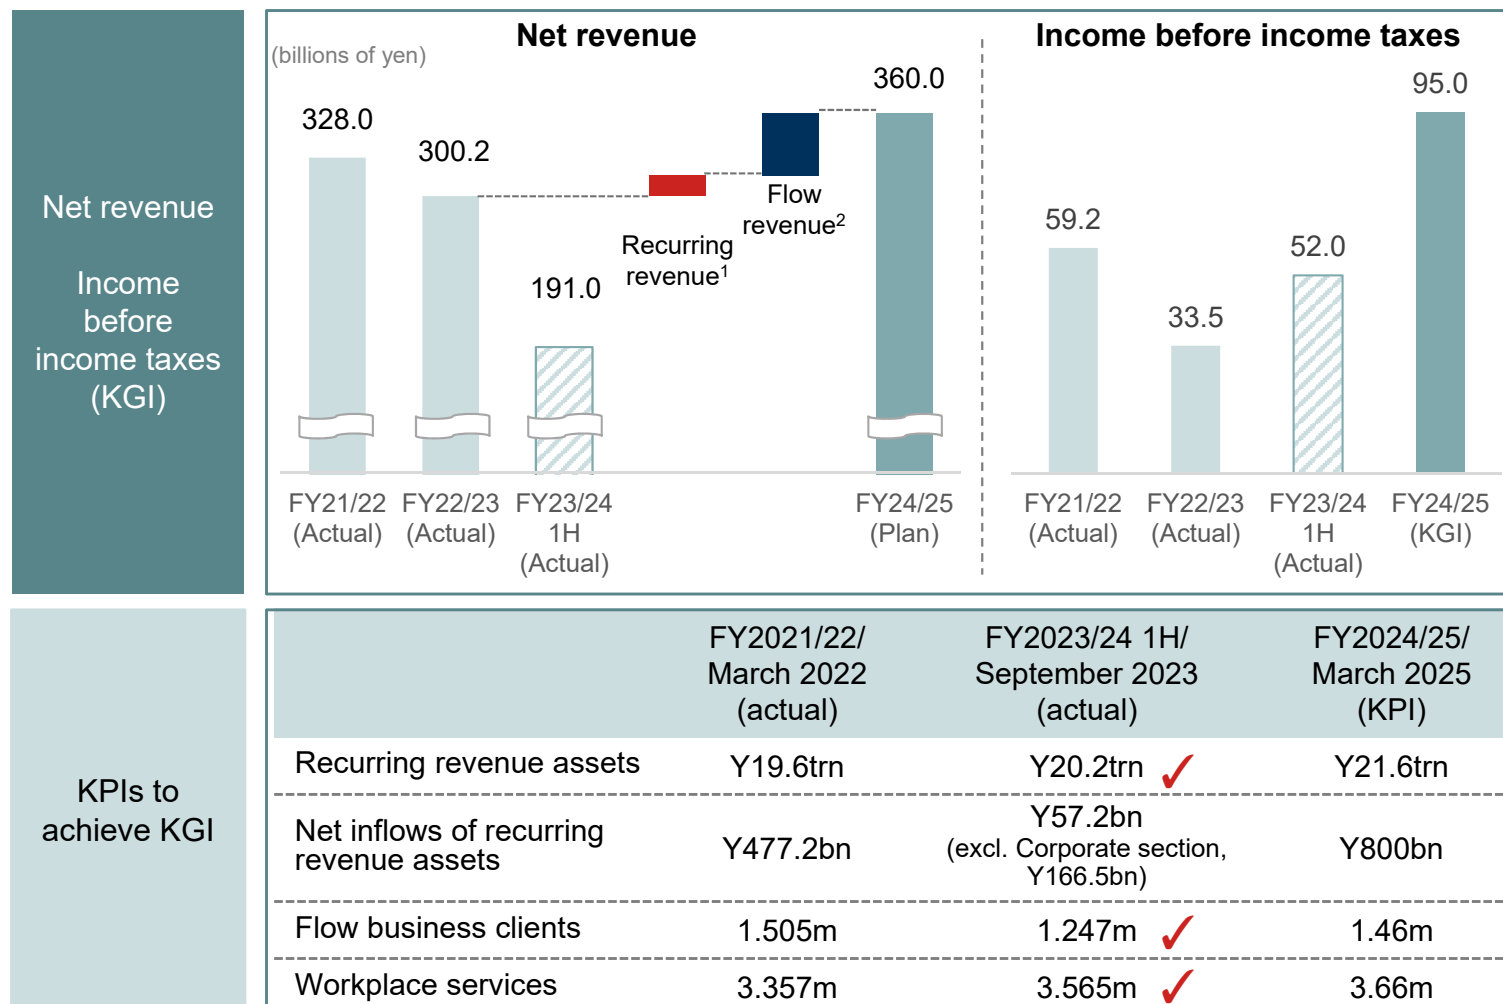

1. As of March 31, 2022; Source: Nomura, based on results of survey by Tokyo Stock Exchange on status of ESOPs in fiscal 2021.

## Retail: On track to meet FY2024/25 KGI and KPIs

- Reorganization completed in spring 2023 coupled with market rally resulted in performance tracking ahead of FY2024/25 KGI target

### FY2025/25 quantitative target

### Key points to achieve target

#### Recurring revenue of over Y150bn

- Provide customized portfolio services tailored to client needs primarily through face-to-face business
- Establish consistent revenue base

#### Flow revenue of over Y200bn

- Aim to increase significantly by focusing on clients with face-to-face needs to further develop business with existing clients and win new clients
- Provide highly specialized services through organization aligned to client needs

#### Expenses

- Controlling costs after determining items for cost reduction as part of project to reform revenue and cost structure

1. Revenue from client assets and continually occurring revenue (investment trusts, discretionary investments, insurance, loans, level fee, etc.).

2. Revenue related to transactions (brokerage commissions, consulting-related fees, interest other than loan-related).

# Wholesale: Working towards FY2024/25 target

## Continue to improve revenues and make additional costs cuts to achieve FY2024/25 target

### FY2024/25 quantitative target

# Approach to business portfolio

- Continue to rate businesses based on the specific characteristics and optimally allocate economic and human capital to raise corporate value

## Current and future business portfolio

Manage capital heavy business with focus on revenue/modified RWA ratio while strengthening capital-light businesses to grow Group ROE

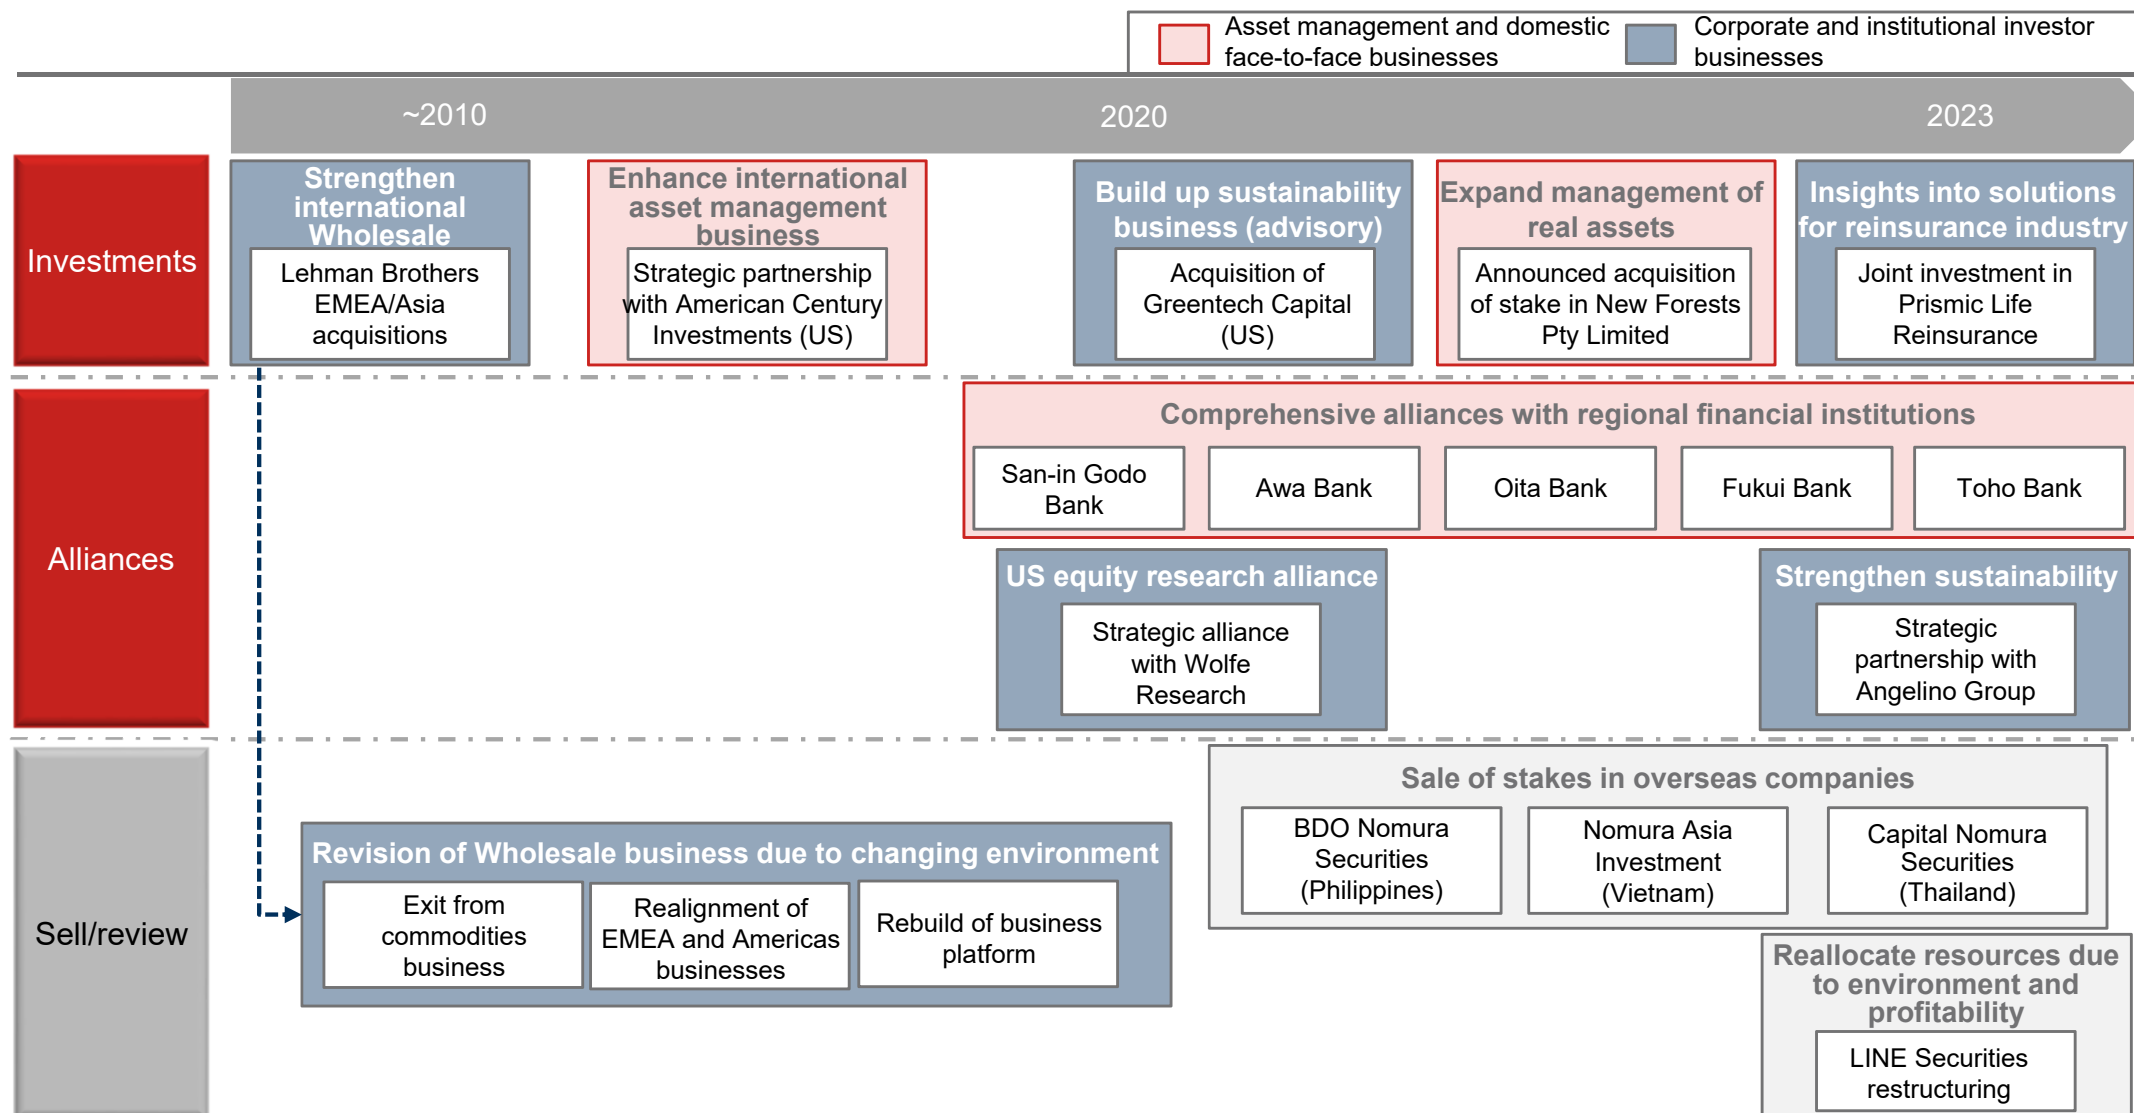

## Earnings growth by optimal allocation of management resources

Drivers to improve ROE			
Asset efficiency	Profitability		
Percentage of total modified RWA	Revenue	Fixed costs	
<b>64%</b> (Mar 2023)  Before accounting for impact of Basel 3 finalization	→	→	<ul style="list-style-type: none"> <li>Manage portfolio focusing on revenue/modified RWA ratio and CIR</li> <li>Scale up core products, expand risk-light businesses to stabilize and diversify revenues</li> </ul>

<b>4%</b> (Mar 2023)	→	→	<ul style="list-style-type: none"> <li>Grow revenues thorough segment-based approach, workplace services, alliances</li> <li>Continue to reduce cost base to boost income before income taxes</li> </ul>

# Continual realignment of business portfolio

- For the past 10 years, we have revised our business portfolio primarily in international Wholesale in line with the changing environment, while also capitalizing on strategic alliances and selectively investing in capital-light businesses (asset management business, domestic face-to-face business, advisory business, etc.)

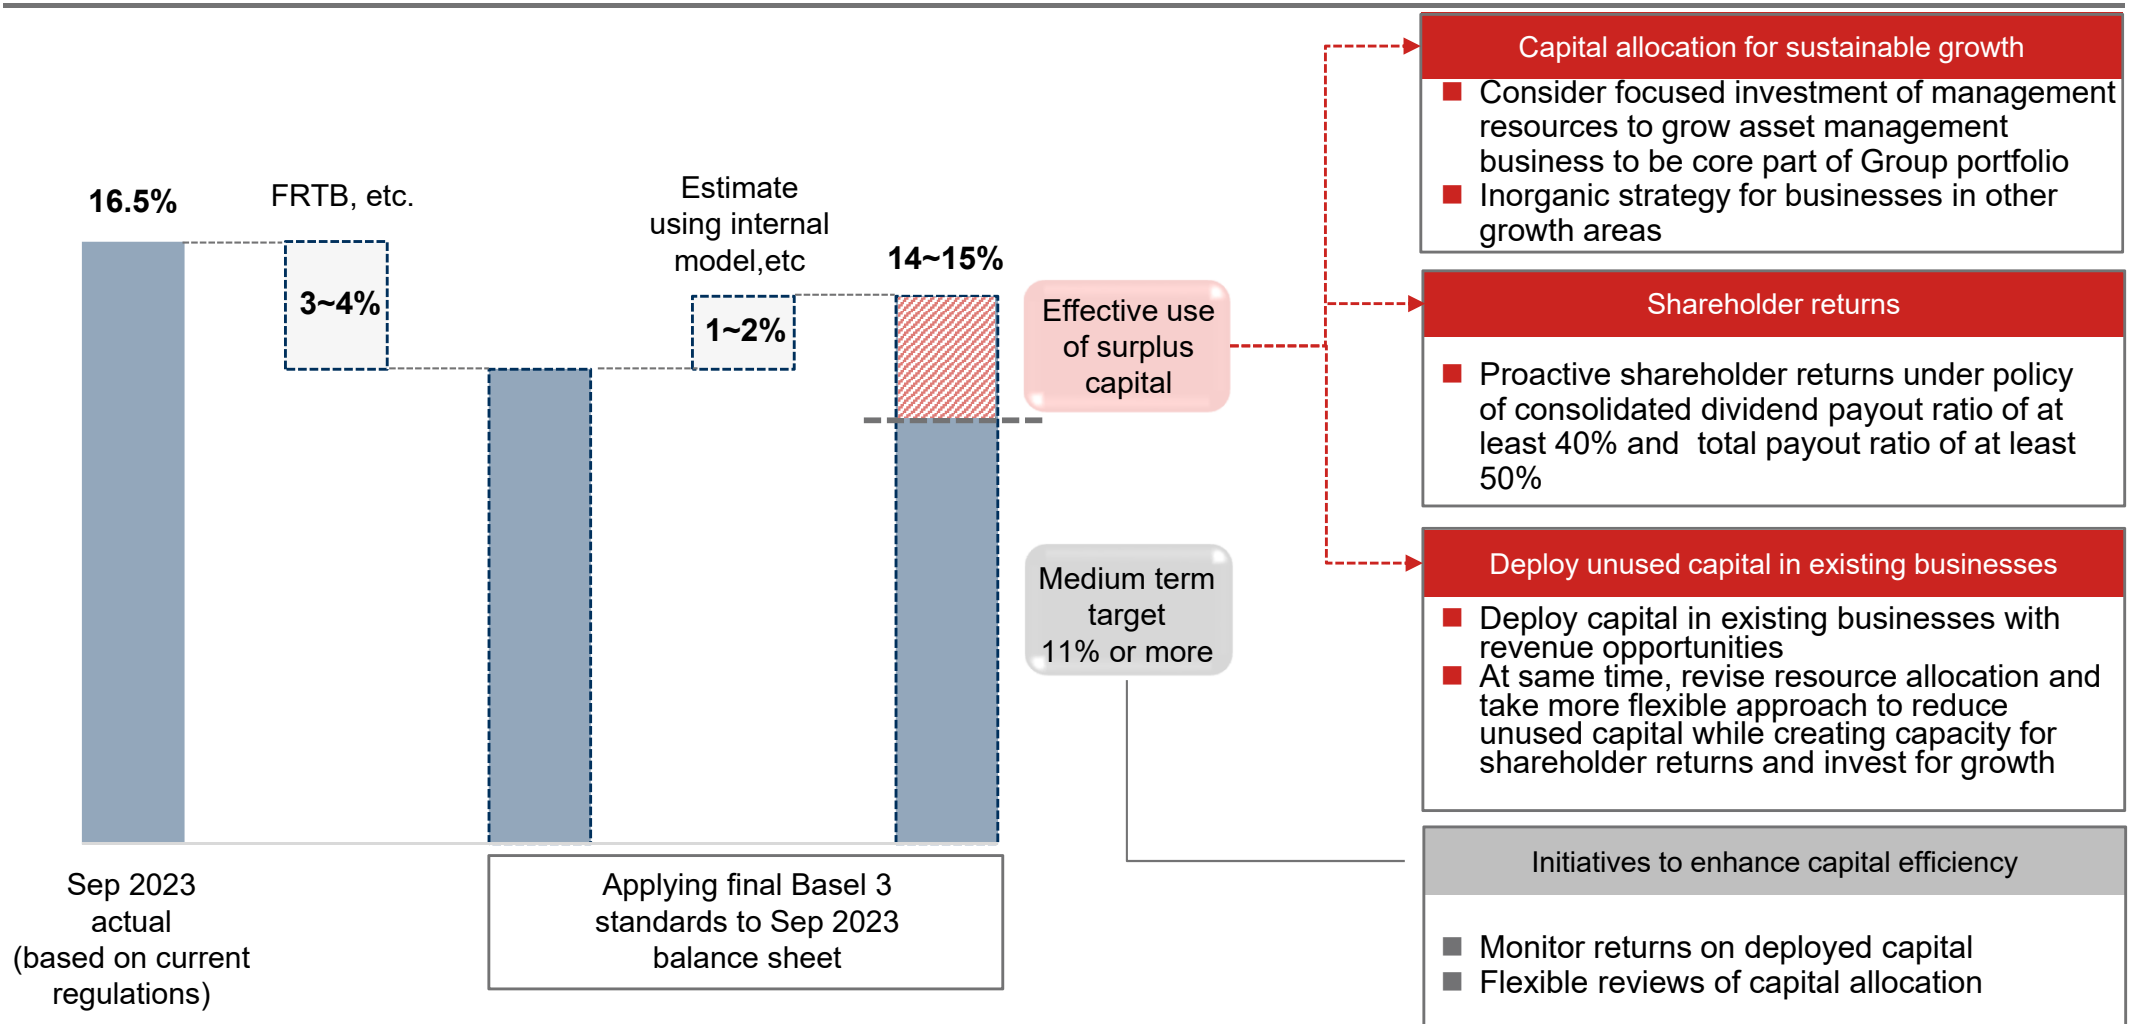

# Capital policy: Impact of Basel 3 finalization and capital allocation

**NOMURA**

- Maintain sufficient capital levels after accounting for impact of Basel 3 finalization; Regulatory capital no longer a concern
- Balance approach aimed at raising corporate value when deploying surplus capital

CET1 ratio

## Capital policy: Shareholder returns

- Dividend payout ratio of 40% or more, and aim for total payout ratio of 50% or more including share buybacks
- Proactively deliver shareholder returns including share buybacks

### Track record of shareholder returns

#### Revisions to capital policy

**2017**

- Implemented policy of cancelling all shares exceeding 5% of total number of issued shares

**2018**

- Aim for total payout ratio of 50% or more including share buybacks

**2023**

- Consolidated dividend payout ratio of 40% or more as key indicator

(FY2013/14 - FY2022/23)

 Avg. total returns: **79%**<sup>1</sup>

■ Total dividend payout ◆ Total payout ratio

1. Including allocations for equity compensation.

# Raising corporate value

- Improving ROE is a top priority to raise corporate value. We are building a business model over the medium term to consistently achieve ROE of 8% to 10% and improve profitability and capital efficiency

## Initiatives to improve PBR

$$\text{PBR} = \frac{\text{1 ROE}}{\text{2 Cost of equity*} - \text{3 Expected growth rate}}$$

1

### Increase ROE

- Build business model to achieve ROE of 8-10% over medium term
- Increase profitability of three core divisions by leveraging strengths and focusing on areas where we can differentiate ourselves
- Maintain disciplined cost control and improve cost-income ratio
- Improve capital efficiency (Reallocate resources to growth areas, deliver appropriate shareholder returns)

2

### Lower cost of equity

- Reduce earnings volatility by stabilizing and diversifying revenues
- Expand risk light businesses, businesses less affected by market volatility, and broader asset management business

3

### Focus on growth areas

- Tap into growth markets
- Achieve organic and inorganic growth
- Continually realign business portfolio

\*Calculated using CAPM (Cost of equity=risk-free rate +  $\beta$  x market risk premium); Estimated at 8%.

# Progress towards FY2024/25 management targets

- Retail saw a marked improvement in profits driven by successful segment-based approach. Investment Management is largely progressing as planned
- Wholesale, Japan performance is robust, while international (particularly Macro Products) is slow

Group financial targets progress    Three segment income before income taxes

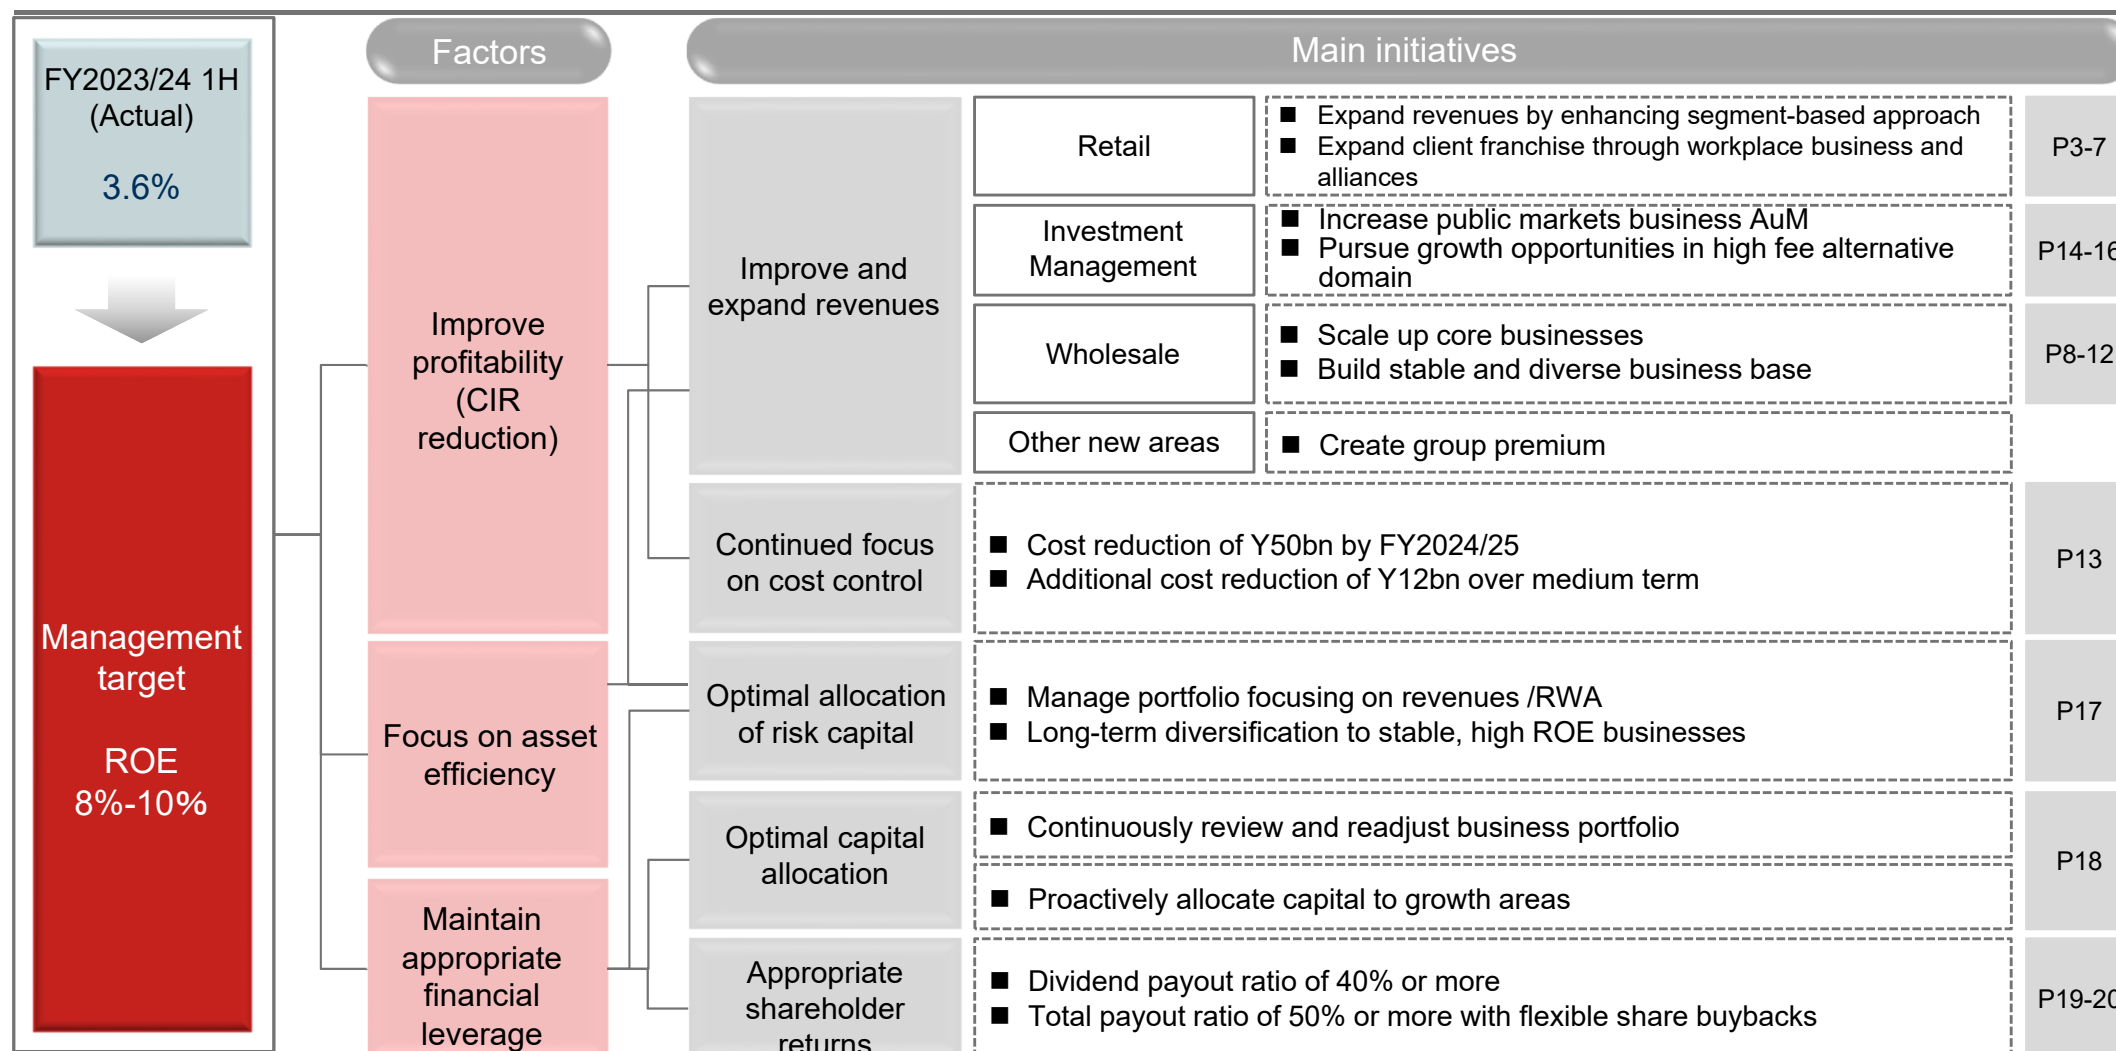

# Improving ROE

$$\text{Pretax ROE} = \left(1 - \frac{\text{Cost}}{\text{Revenue}}\right) \times \frac{\text{Revenue}}{\text{RWA}} \times \frac{\text{RWA}}{\text{Equity}}$$

Cost-to-Income Ratio      Return on RWA (ROA)      RWA on Equity

Building a business model to consistently achieve ROE of 8%-10% (ROE logic tree )

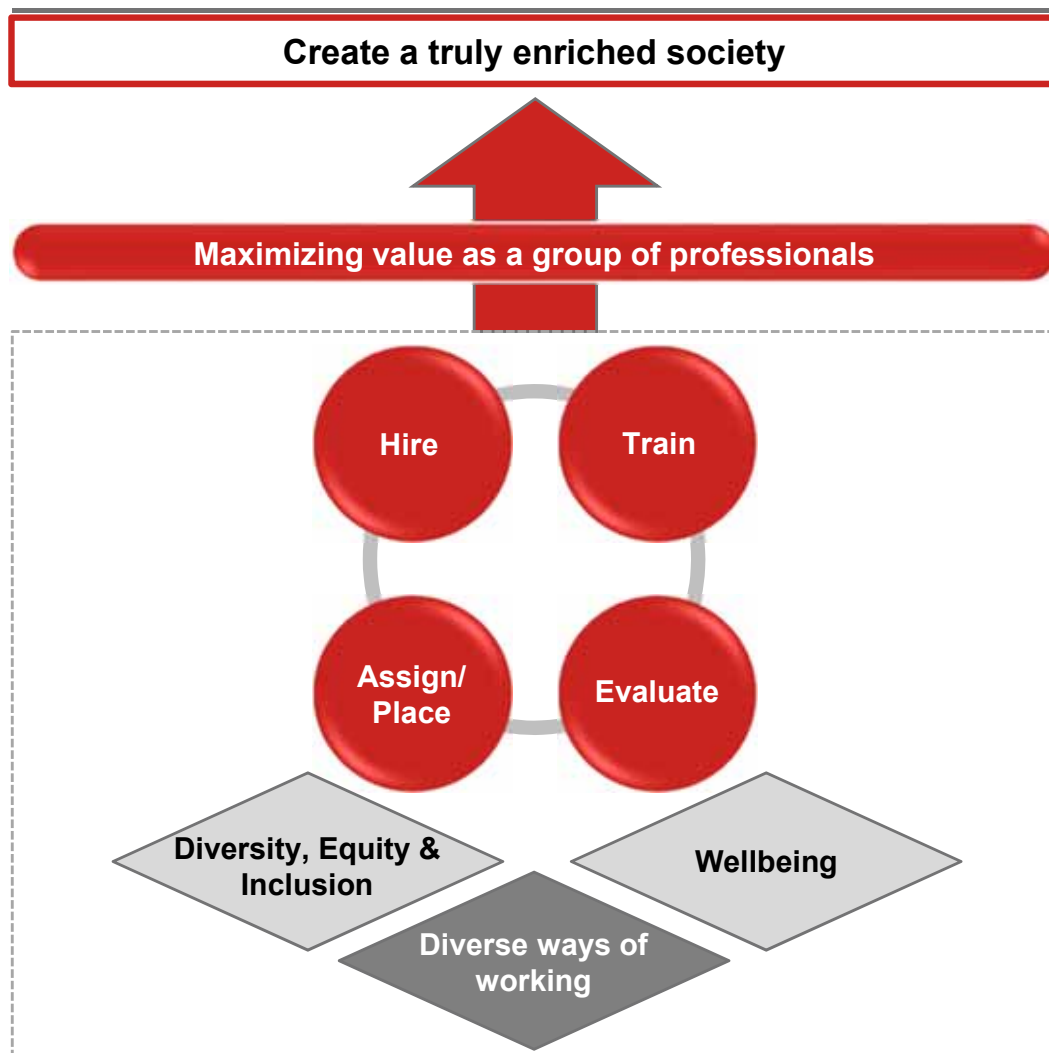

## **People strategy to raise corporate value**

# Nomura Group people strategy
